

Anuj Kumar Singh

JavaScript | MERN Developer

CAREER OBJECTIVE

I am willing to join an organization which offers me opportunities to learn and innovate in the cutting edges - technologies via utilizing my knowledge & passion and help me grow in both Organizational and personal perspective.

EXPERIENCE

Internship- Antares Tech, Noida UP

Feb 2022 - Aug 2022 (6 - Months)

- Worked on MERN stack project which is a market analysis and scoring system which generates agricultural reports.
- Implemented usage manager which is basically used to track user activity and help find weekly active users, reports created etc.
- Implemented 'DataToCSV' module using 'exceljs' library that allows users to export report to excel file.
- Resolved several bugs in these applications making them failure proof.
- Technologies used- Nodejs, MongoDB and React JS, Redux.
